Dear Members,

I hope you had a joyous holiday season, and I wish you a new year filled with good health, happiness and prosperity.

Last year was a great one for Local 804 FCU in terms of growth and development. We added 237 new members and provided nearly \$3 Million in loans. But we could do so much better. Union Local 804 currently has over 7,300 members and only 36% are members of the credit union. Help us continue to grow. Spread the word to co-workers and family members to join your credit union. Our goal is to help you realize your dreams for a better life by offering great rates, low fees and the products and services you need.

We want Local 804 FCU to be your first choice when looking for federally insured accounts that provide steady returns. We're happy to announce the reinstatement of interest earning Vacation Club Accounts to help you save for that well deserved vacation with family and friends.

I'm also happy to announce that Apple & Samsung Pay is just around the corner! Please check our website and look out for communication from us for starting date updates. You'll have the option of adding your Local 804 Credit Union Visa® credit and debit cards to your iPhone or Samsung phone with Apple Pay and Samsung Pay.

Add your card to your smartphone and you'll have the chance to pay for groceries and more without needing your physical card. It's a great way to protect your card information from prying eyes when you're at the store. Plus, it's easy and frees up some space in your wallet. Just download the Local 804 FCU Pay APP and start enjoying the convenience.

Looking to the new year, we are committed to making banking better and more convenient for you. To deliver a better online experience we're excited to announce we will be revamping our Website in the first quarter. We will also continue our efforts to growing our membership. Please continue to spread the word to your colleagues and family members.

We look forward to serving your financial needs in 2020 and beyond!

Sincerely,

Ysemny Abood

Debt consolidation makes it faster and easier **PAY OFF CREDIT CARD BALANCES**

The minimum payment schedules on your credit cards are not designed to be efficient. They don't help you pay off debt quickly. In fact, they keep you in debt as long as possible because that increases revenue for the credit card issuer. So, when minimum payments don't work, credit card consolidation offers you a better way to repay what you owe.

What is credit card debt consolidation?

Debt consolidation simply refers to the process of combining multiple debts into a single monthly payment. Instead of making payments to all your creditors individually, you roll all your debts into a single, simplified repayment plan. At the same time, you also work to reduce or eliminate the interest charges applied to your debt. This allows you to get out of debt faster because more of each payment you make goes to eliminating principal.
